Name	Description	Product No.	Requirements
IBM Planning Assistant	An electronic spreadsheet program to perform numerical planning such as budgeting, planning, and predicting. It is a quick and easy way to analyze data according to "what if" hypothesis.	5601-SAP	128KB DOS 2.10
IBM Reporting Assistant	Helps define a report, provides the information needed, then saves the report definition to be used over and over. Allows you to specify the criteria for selecting and retrieving records used in the report.	5601-SAL	128KB DOS 2.10 (Note 1)
IBM Writing Assistant	Helps to create letters and documents and even checks spelling through an integrated Word-Proof program. Created documents can be retrieved, displayed, modified, or printed — all with just a few keystrokes.	5601-SAQ	128KB DOS 2.10
Member Services	Helps you improve your organization's control of its financial objectives and to produce letters to members and status reports. Ideal for helping you to manage clubs, rentals, apartment buildings, or condominiums.	5601-SDB	128KB DOS 2.10 2 disk drives
Multiplan 1.1 ™	A spreadsheet applicable to many different kinds of numeric modeling and planning. Provides a framework for the relationships between constant and varying elements of a numeric model.	5601-SDG	128KB DOS 2.10
Personal Communications Manager	Enables your personal computer to perform terminal emulation and to send or receive correspondence with compatible computers over standard phone lines.	5601-SDQ	128KB DOS 2.10 (Note 3)
Project Planning and Scheduling	A comprehensive program to simplify and speed project planning. Accomodates up to 450 activities for projects all the way from building a house to manufacturing a product.	5601-SEK	128KB DOS 2.10

Personal Productivity

Name	Description	Product No.	Requirements
Color Paint	A graphic design tool with the ability to define fill patterns, choose different brush styles, and select from a 16 colour palette. These and many other functions make Color Paint flexible for both the amateur and professional artist.	5601-SBD	128KB DOS 2.10 (if JX has diskette drive)
DB/Editor/Writer	Provides an efficient way to do a broad variety of data entry, record keeping, utility, and report writing activities in a simple-to-use program. Features comprehensive online Help screens, function keys for selecting various operations, and precision arithmetic calculations.	5601-SBK	128KB DOS 2.10
Diskette Librarian	Create and maintain a catalog of file names for multiple diskettes. Diskette Librarian marks old versions of files and files without exact copies and summarises the space available on each diskette.	5601-SBN	128KB DOS 2.10

Business

Name	Description	Product No.	Requirements
Cluster Program	Provides a low cost multi-user configuration by connecting multiple JX s to an IBM PC XT or IBM PC with an Expansion Unit. This product allows an IBM JX with no diskette drives to share disk space on a hard disk.	5601-SBC	128KB DOS 2.10 (Note 6)
DisplayWrite 1	Provides basic text function supporting the creation, revision, and printing of documents. Menu-driven functions similar to the DisplayWriter System are supplemented by commands and prompts for use across the IBM family of PC-based intelligent workstations.	5601-SBP	128KB DOS 2.10
DisplayWrite 2	A menu-driven, high level text processing program with a wide range of text creation and revision capabilities. A 4,500 character, user-created supplemental dictionary can be used for spelling verification.	5601-SBQ	384KB DOS 2.10 2 disk drives
DisplayWrite 3	Contains all the functions provided by DisplayWrite 2, plus advanced text functions and new features designed to facilitate document interchange and improve user productivity (e.g., Keystroke programming to save and recall up to 500 keystrokes).	5601-SBR	384KB DOS 2.10 2 disk drives
IBM Assistant Accounting Solutions	Easy-to-use pre-designed Filing Assistant forms that use an IBM JX to input and display information useful in a small business or the office. Intended to address simple accounting needs, or to supplement an acounting system.	5601-SAR	128KB DOS 2.10 (Note 1)
IBM Assistant Executive Solutions	Helps to manage a chequebook to keep appointment schedules and also helps with names, addresses, and phone numbers. Ideal for small offices.	5601-SAS	128KB DOS 2.10 (Note 1)
IBM Assistant Home Solutions	Easy-to-use, pre-designed Filing Assistant forms that use an IBM JX to input and display information for the home.	5601-SAT	128KB DOS 2.10 (Note 1)
IBM Filing Assistant	An easy-to-use electronic spreadsheet for small offices. Memory, search, and revision are performed easily. Sort by field is possible.	5601-SAK	128KB DOS 2.1
Graphing Assistant	An easy-to-use program that enables an IBM JX to summarize infomation in the form of business graphs to help you understand and analyze information. Graphs can be displayed on the screen, printed, or plotted.	5601-SAN	128KB DOS 2
Mainframe Communications Assistant	Allows communication over an asynchronous link with a mainframe host computer or another JX.	5601-SFY	128KB DOS (Note
Planning Assistant	An electronic spreadsheet program to perform numerical planning such as budgeting, planning, and predicting. It is a quick and easy way to analyze data according to "what if" hypothesis.	5601-SAP	128 DOS
Reporting	Helps define a report, provides the information needed, then saves the report definition to be used		128
